

Jochebed's Basket

Cut the reeds along the dashed lines: Beginning with the second reed, fold or cut one reed and not the next so that there is a space between them. Then, fold the sheet along the solid line. Then, roll each reed with a pencil so that it is somewhat curved and the basket can be seen through the reeds. Read Psalm 121:2. Remember that, although the situation seemed difficult, God had everything under control.
