

Make sure Student Activity Sheets 196b and 196c are printed front and back. Cut out the shape. Cut along the short lines of sections 1 and 5. Then fold the triangle segments. Insert the slit from section 1 into the slit in section 5 to form the pyramid. Tell the Bible story, and explain how the Bible makes the difference. Separate sections 1 and 5. Turn the picture over and write your name on the line. Reinsert the two slits together and describe what the pictures represent. Afterword, read the verse.
