

# Christmas Cutouts

Make the Christmas scene. 1. Make sure Student Activity Sheets 259a and 259b are printed front and back as well as 259c and 259d are printed front and back. Cut out the barn along the dashed lines. 2. Fold the barn along the solid lines so that it can stand up by itself. 3. Cut out the star and the figures below. 4. Cut out the slot above the barn. 5. Place the star in the slot, and then glue or tape the flap of the star to the back of the barn. 6. Use the barn with the figures to tell how Jesus was born.
