

What is "SIN"?

"It is a voluntary transgression of a known law of God." *

"Voluntary" means that someone decides to do it; it's a conscious choice.

"Transgression" is when we break a rule or law.

"Known" means that God has revealed to us that an action is against his law and is wrong.

"God" is the one who decides what is and what isn't sin. In the Bible, he shows us what sin is.
