

Jesus Teaches Us to Share

LESSON

55

For this activity, you will need disposable cups, glue or tape, pencils, crayons, and wheat straw (preferably with the wheat heads still attached) or uncooked pasta. Make a sample of this activity prior to the session. It may be necessary to make the barn for several of the children.

Distribute Student Activity Sheet #55-A and #55-B. Show the students how to trace the word of faith on Student Activity Sheet #55-A. Pass out a figure of the barn to those children who are not able to do this part of the activity. Show the other children how to fold the sheet (barn) and then glue or tape it to the cup. Distribute two bunches of wheat or pasta to each child so each one can add a bunch in the cup and share the second bunch with someone else.

As they work, review the content of the lesson, asking them questions about what they learned in the Bible story.
