

# God Helps David to be Kind

## LESSON 60

**Instructions:** Help your students cut out the four cards along the dotted lines. Ask the children to carefully look at the pictures and have them tell how the children in the pictures are being helpful and kind. Give them time to trace the key word and draw a picture in the empty space that shows how they can be kind and helpful.

Turn the cards over and review the Bible story of David and Mephibosheth. Ask them to repeat the memory verse. When class is over, give the children their cards in a plastic bag so they can take them home and tell their family what they learned today in the lesson.

God helps us know His will.
